#### I. Preamble

The Industry 4.0 National Technology Platform has been founded by Hungarian research institutions, education institutions, companies and professional associations having premises in Hungary with the signature of the Deed of Foundation on the 06<sup>th</sup> of May, 2016.

## II. General provisions

2.1 The Name of the Organisation: Industry 4.0 National Technology Platform

Seat: 13-17. Kende Street, Budapest, H-1111

Phone: +36-1-279-6000

Email: ipar4.0@sztaki.mta.hu

Legal status: professional body and lobby forum of the Members' free association without any

organised legal form.

<u>Objective of the Platform:</u> Fostering information exchange and cooperation between Hungarian companies, research and education institutions, and professional associations, as well as accelerating innovation in the key areas of digitisation and production, i.e. those of Industry 4.0.

## 2.2. Mission of the Platform

The industrial sector has entered a new technological era in which Internet economy fundamentally transforms the production systems. This process requires the advanced and paced deployment of the bridges between the physical and digital world, a special innovative adaptability, answers faster than ever, and bold innovative steps from each participant of the economy — with special regard to the companies involved in the key sectors targeted by the Irinyi Plan —, from the Government's economic policy as well as from the institutions of the innovation system.

Being aware of the above and in order to strengthen the achievements in the global competitiveness of the industry attained by our country, the Parties encourage the further deepening of the established broad and effective partnership relations, as well as the creation of an intensive and action-oriented system of cooperation compliant with the best practices in Europe.

The Founding Members, in order to ensure the necessary leverage and its professional coordination, established the Industry 4.0 National Technology Platform.
